

## The MBX Difference: Relationship Based Partnerships

**Our bottom line is your bottom line.**

**We don't simply chase the low hanging fruit.**

Put simply, our outsourced revenue cycle management will collect more dollars, improve your cash flow, support your physicians and delight your patients.

MBX is a growing organization specializing in radiology billing. With MBX, from the start of our relationship to go live, you are in safe hands. Our experienced leadership team, who between them possess over seven decades of working with some of the nation's leading radiology group practices, has implemented over 300 outsourced revenue cycle management systems. We process millions of procedures per year for practices from coast to coast, as diverse as three provider interventional radiologists in Oregon to a 100+ provider practice in North Carolina.

MBX delivers consistent and exceptional revenue cycle management. We bill and collect every possible dollar by capitalizing on operational expertise that is second to none. Our exceptional rate of claims accepted the first time, along with our strong denials management process, ensures that claims are processed quickly and denials handled efficiently and effectively.

Our end-to-end service extends from the point at which we receive the physician's dictated report all the way through to the patient's account at zero balance – we worry about the billing, you lower your operational overheads.

---

**By leveraging our collective leadership strengths, billing software and team of seasoned billing experts, MBX consistently delivers on a set of clearly defined expectations while establishing trusting, long-term relationships with our clients.**
